

I am in hopes that you will not pass any telephone privacy act that would be less than or lessen the one that is already in place in the state of Indiana! I have found it a great relief not to be bothered during mealtimes and at other busy times during my day by unwanted solicitors. I am also pleased to have my Sundays uninterrupted by unwanted telemarketers since I had my number added to the Indiana list. Please back up and uphold what we in Indiana have already implemented!! Thank you!
